

## WEDNESDAY, JUNE 4<sup>th</sup>

**07.30-08.00**    **Opening & Registration**

**08.00-10.00**    **PLENARY SESSION (1)**

**SRS management of benign skull-base lesions: update and state-of-the-art**

Equipment, QA, basic dosimetry issues

Vestibular Schwannomas

Meningiomas

Pituitary Adenomas

Rare benign skull-base lesions

**10.00-10.30**    **COFFEE BREAK & POSTER VIEWING**

**10.30-12.30**    **PLENARY SESSION (2)**

**SRS/SBRT management of spinal conditions: update and state-of-the-art**

Radiobiology (dose tolerance, toxicity, ...)

What have we learned from 2 decades of spine SBRT

Specific indications (1) - Metastases

Specific indications (2) - Benign conditions

Specific indications (3) - Functional indications

Technical considerations for spine SBRT

**12.30-13.30**    **LUNCH BREAK**

**13.30-16.00**    **SPONSORED SESSIONS**

Lectures by device users (plenary)

Hands-on (parallel)

**16.00-16.30**    **COFFEE BREAK & POSTER VIEWING**

**16.30-18.00**    **PLENARY SESSION (3)**

**Round table, cases presentation and discussion**

«What would you do?» - Skull-base cases

Presentation & discussion on full-management of a complex spinal case

From diagnostic to treatment with intervention of multiple specialists from different disciplines (imaging, pathology, surgery, ...)

**18.00-18.30**    **THE ISRS CORNER**

Guidelines, Certification Service, and other projects

**19.00**            **ISRS Summit Reception**

## THURSDAY, JUNE 5<sup>th</sup>

**07.30-08.00**    **Opening & Registration**

**08.00-10.00**    **PLENARY SESSION (1)**

**New trends and multi-disciplinary management of benign skull-base lesions**

Radiobiology - BED

Novel imaging MR sequences / Radiation necrosis

Planning & dosimetry strategies - Role of AI

Microsurgery for complex skull-base tumors in the era of SRS

Combined approaches for large VS

SRS after microsurgery for meningiomas & other skull-base tumors

**10.00-10.30**    **COFFEE BREAK & POSTER VIEWING**

**10.30-12.30**    **PLENARY SESSION (2)**

**New trends and multi-disciplinary management of spinal lesions**

Equipment & QA / Dosimetry

Imaging response to spine SBRT

Combined approaches / Fixation & SRS

New / Expanding indications

Minimally invasive spine surgery and SBRT

Maximal surgery and SBRT

**12.30-13.30**    **LUNCH BREAK**

**13.30-16.00**    **SPONSORED SESSIONS**

Lectures by device users (plenary)

Hands-on (parallel)

**16.00-16.30**    **COFFEE BREAK & POSTER VIEWING**

**16.30-18.00**    **PLENARY SESSION (3)**

**Round table, cases presentation and discussion**

«What would you do?» - Spine cases

Presentation & discussion on full-management of a complex spinal case

From diagnostic to treatment with intervention of multiple specialists from different disciplines (imaging, pathology, surgery, ...)

**18.00-18.30**    **THE ISRS CORNER**

Guidelines, Certification Service, and other projects

**18.30-19.00**    **Concluding Remarks & Meeting Adjourn**
